## F.I.T.™ Comfort Deck

### Group 548

Out with the old and in with the new and improved! Comfort Deck was a well-loved Wearwell product, but it had a few flaws. There were size limitations, it lacked anti-fatigue benefits and couldn't be customized. We set out to find a better solution.

F.I.T.™ Comfort Deck has the surface pattern loved by all with the benefits of F.I.T.!! The highly textured surface design provides extra traction in slippery conditions. The tiles feature an open-hole design that allows for quick drainage resulting in a drier standing area. The unique nub pattern provides the ultimate comfort and anti-fatigue surface for your Industrial Athletes to stand on. You can easily cover and customize any work space and the tiles provide anti-fatigue benefits making your employees healthier and more productive.

- Most versatile modular tile
- Customisable in 8 cm (3") increments
- Secure and seamless connections
- Silicone-Free
- Overall thickness 16 mm (5/8")
