

24/Seven® LockSafe® MAX Male Edging, 8 cm x 91 cm - Yellow

Group 581.MGRYL

www.wearwell.com

[24/SEVEN® LockSafe® MAX](#) male edging is Grease Resistant and securely interlocks with 24/SEVEN® LockSafe® MAX modular tiles. Yellow edging acts as a visual cue and smooth transition for foot traffic. Grease Resistant rubber (also known as GR or natural rubber) is suitable for dry areas or wet areas where the primary liquid is water.

For use with 24/Seven Locksafe MAX series products only.

- For dry areas or areas with water
