FOUNDATION™ Modular Work Platforms for Food and Beverage

Group FPF1

By far, the largest safety challenge in the food and beverage industry is slip and fall prevention. FOUNDATION™ modular [work platforms](#) provide fast drainage and elevate employees safely above pooling fluids and slippery floors. The surface features integrated traction points for unmatched, long-lasting slip resistance.

All components of [FOUNDATION](#) platforms, including the aluminum frame, are corrosion resistant. **The 100% recycled polypropylene tiles stand up to a wide range of chemicals and fluids including vegetable oils, animal fats, citrus, and fish oil.**

As a fully modular system, FOUNDATION cuts down on the time, labor, customization, and costly manpower of traditional steel and wood platforms. Assembly and installation has never been easier! Choose from a range of heights, lengths and widths to form any shape or size down to 18" (.45m) sections.

Each 18" x 18" tile boasts a load rating of 400 pounds, providing all the support your team needs and more!

- Superior slip resistance
- Improves worker ergonomics
- Chemical, oil and fat resistant
- Made from 100% post-consumer recycled polypropylene
- 400 lb. (181.5kg) load capacity per tile

Wearwell Categories	Platform
Suitable Environment	Slippery
Customization Options	C3
Solid or Drainage	Drainage
Material	Polypropylene/Aluminum
Recycled	54%
Warranty	1 year

Property	Test / Result
Flammability	FMVSS 302: Pass B
Taber Abrasion	ASTM D3884: 0% @1000 cycles
Temperature Range	32-160F
Coefficient of Friction	ASTM F2913-19: 1.03 dry, 0.83 wet
Compression Deflection	Not Applicable
Tear Strength	Not Applicable
ESD Rating	Not Applicable
Dielectric Strength	Not Applicable
