

## FOUNDATION™ Galvanized Steel Single Safety Railing

### Group RK.SR

Wearwell's Railing pieces are 6 feet long and assemble with the Post kits with minimal effort. **This is a single 6-foot rail. Order two (one top and one middle rail) for connecting with a rail kit or post.**

Wearwell's Rail System is a tough, modular system with no welding or threading required. Save time, labor, material, and handling charges associated with traditional railing. Railing kits take the guesswork out of material needs for your unique layout.

Building straight runs and turns has never been easier. Use on solid concrete surfaces around the perimeter of our FOUNDATION platform system for added safety. Railing is available in 4 stock heights as well as custom heights. Work with an expert to plan larger layouts.

- 42", 46", 50", 54" and custom heights available
- Concrete Anchor Screws and all components included
- 90 degree turns available
- Top of railings should be 42 inches above the walking surface
- Posts and rails are 1.5" (3.81cm) in diameter
- Made of Galvanized Steel

<b>Art</b>	Railing
<b>Geeignete Umwelt</b>	Nass/Trocken
<b>Anpassung Ebene</b>	C2
<b>Feste oder Drainage</b>	Solid
<b>zusammengesetzt</b>	Galvanized Steel
<b>Recycelt</b>	N/A
<b>Garantie</b>	1 year

Property	Test / Result
