INDUSTRIAL WorkSafe No. 476

Industrial WorkSafe - always a fan favorite - has been improved and expanded to fit today's more demanding workplace. We've taken out some of the excess weight...because not everyone is a fan of heavy mats and high shipping costs! We now offer two grades of rubber for a broader choice of price points and performance levels. Choose GR for areas with water or NBR for areas with petroleum based fluids. WorkSafe is about giving industrial athletes the right solution for their line of work.
