

WEARWELL®

Every day, companies take the field in the world's most demanding and competitive team sport – business! Wearwell can provide you and your industrial athletes with a competitive edge through our innovative surfaces. Our team works onsite with safety managers and facility owners to create the best flooring solutions for industrial environments.

SLIP, TRIP AND FALL STATS

3rd leading cause of missed work days and **4th** leading cause of work related death

\$13.5 billion. The annual national Workers' Comp cost of same level falls (the 2nd most costly among workplace injuries)

\$41,531. The average cost of a slip and fall claim.

\$85,648. The average cost of a head injury claim.

42%. The increase of Workers' Comp costs for slips and falls in the past 11 years.

*NATIONAL SAFETY COUNCIL
2012 Edition of Injury Facts*

INDUSTRY FOCUS

- General Manufacturing
- Automotive
- Energy Exploration
- Metal Fabrication

FIELD SURFACE: CONCRETE

- Wet, oily and slippery
- Hard and unforgiving
- Difficult and costly to maintain

EFFECTS

- Poor traction
- Unsure footing slows productivity
- Frequent slip and fall incidents
- More severe impact injuries
- Loss days from work
- Higher costs

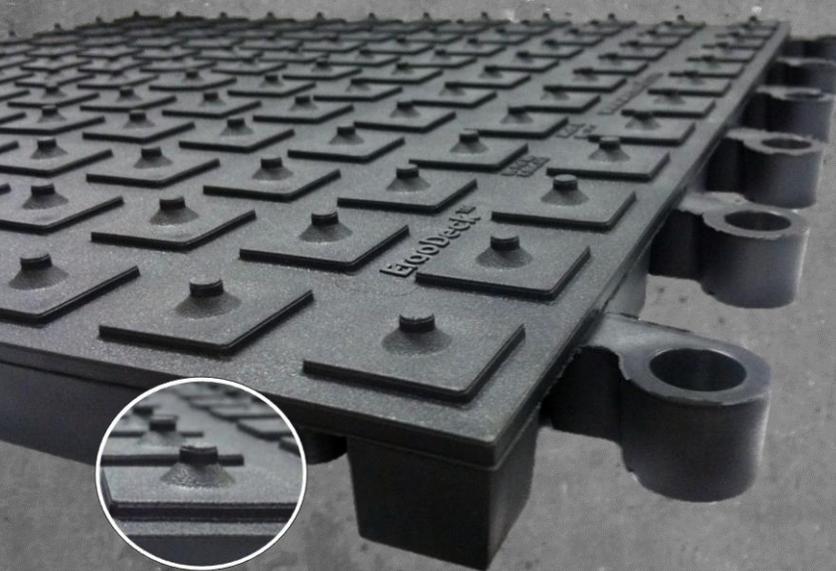

BOTTOM LINE- THE SOLUTION IS PREVENTION.

SOLUTION

ErgoDeck® with Integrated No-Slip Cleats

ErgoDeck with Integrated No-Slip Cleats delivers a sure-footed work surface for maximum productivity, performance and safety.

Like professional playing surfaces, gritted products give some temporary traction but wear with use and become slippery with saturation. Cleats are a tried and true means to overcome such harsh conditions.

Structural base for maximum cleat strength

PROBLEM SOLVED

Slip Prevention. Long lasting, high performance traction.

COF (wet or dry) 1.10 per ASTM F 1677-05

Trip Prevention. Wide ramps provide smooth transition to reduce tripping

Visual cue. Yellow edging defines work areas and calls attention to the change in surface.

Maintenance. Can withstand power washing, scrubbing and aggressive cleaning.

ErgoDeck® STANDARD FEATURES

Ease of Installation. Robust 7/8" thick tiles are 18" x 18" to cover large areas quickly with no tools required.

Customize. Cut and connect in 3" increments to fit any area.

Secure. Positive Interlock System prevents separation yet zips apart on demand

Value. Easily replace single tiles or sections as needed.

Style	Wearwell No.	UOM
Solid	552.78x18x18BK-CS10	Case of 10
Drainage	553.78x18x18BK-CS10	Case of 10
Ramps	560.75x6x18YL-CS10	Case of 10
Outside corner	560.75x6x15x15YL-CS4	Case of 4
Inside corner	560.75x6x9x9YL	Each
