

ErgoDeck® Cable Bridge Kit Product No. 560

Problem:

Exposed cables and hoses in the industrial work place pose trip hazards. A common “fix” is using tape or other temporary alternatives.

Solution:

Our ErgoDeck® Cable Bridge is comprised of existing sku's and used in conjunction with ErgoDeck flooring. With proper planning the system eliminates the need for cutting.

Features and Benefits:

- Accessibility to cables/hoses
- Offers more clearance; 7/8” instead of 5/8”
- Electric blue color differentiation calls attention to the location of cables, hoses, wires, etc.

Packaging Information:

Available in straight runs and corners

Straight Cable Bridge kit contains:

- (4) 18” yellow ErgoDeck® ramps
- (2) 6” wide blue tiles

Corner kit contains:

- (1) yellow inside corner
- (1) yellow outside corner
- (2) yellow side ramps
- (2) sections of blue ErgoDeck® solid

Dimensions:

Straight: 18” wide x 36” long

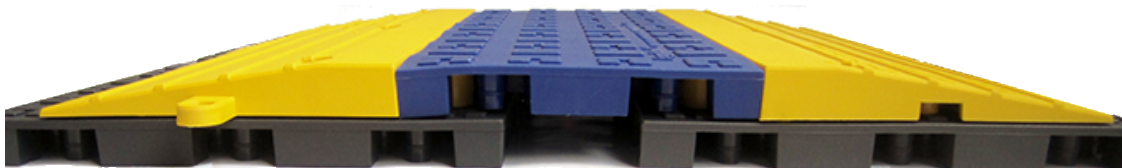

Corner: 15” wide x 15” long

These are consistent with similar products currently on the market.

SKU Information:

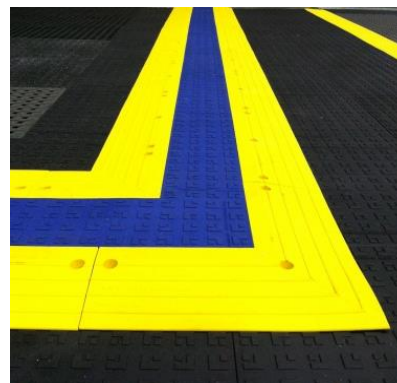

560.78x15x15BLYL ErgoDeck Cable Bridge Kit-Corner

560.78x18x36BLYL ErgoDeck Cable Bridge Kit-Straight

Step 1: Create 1”-2” channel between ErgoDeck® tiles.

Step 2: Route cables/wires.

Step 3: Lay the assembled bridge over the channel.

Optional Step 4: Anchor down bridge with 12 - 3/4” metal screws.
