

# ErgoDeck® Illuminate System

## LIGHT UP YOUR WORKSPACE WITH ERGODECK® ILLUMINATE SYSTEM

ErgoDeck® Illuminate tiles offer a convenient way to lighten up poorly lit work areas from the floor up. Each tile can accommodate up to five Illuminate channels. The system is extremely simple, flexible and cost effective. Wearwell provides the customized ErgoDeck tiles, the aluminum channel and the protective clear or frosted lens for the channel. The customer chooses the LED lighting (sold separately) from the huge array of options available in the marketplace.

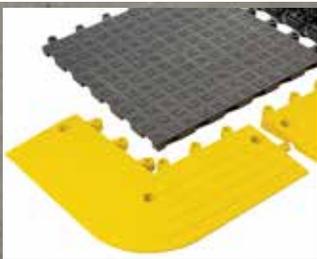

Channel and tiles come unassembled

Put it all together and brighten up any workspace today!

PRODUCT	PART NUMBER	SIZE	COLOR
ErgoDeck Illuminate Tile Channel	566.CH.Chan1-CS10	18" x 18" (46cm x 46cm)	Charcoal, Black

ErgoDeck Illuminate Channel w/Lens Cover	566.716x1x79ALFR-CS3	79" x 1" (2m x 2.5cm)	Aluminum/Frosted Lens

### PICK YOUR TILE COLOR - CHARCOAL OR BLACK

ErgoDeck Flooring - anti-fatigue  
Robust wide ramps - trip prevention

Choose the LED light of your choice. LED lights NOT included with the tile.

# IMPROVED VISIBILITY, IMPROVES PRODUCTIVITY

## HERE'S HOW IT WORKS.

First, specify where to cut the illuminate channels into the tiles. Next, the tiles are custom produced and shipped with the cut-outs. To install, simply lay out the tiles, aligning the cut-outs.

Then inset the aluminum channel in the cut-outs, customizing length and fit to the installation area.

Finally, insert the LED lights (sold separately) of your choice and snap in the clear protective lens.

## EASY TO INSTALL

Simply connect the 18" x 18" tiles in your desired configuration — add the channel, lights and protective casing.

## ERGODECK SOLID TILES

Offers improved traction and aesthetic industrial design. Our 100% secure patented interlocking system.

## UNIVERSAL EDGING SYSTEM

Seamless transition. Enter and exit tiled areas with ease.
