

# WEARWELL®

## 24/Seven® LockSafe®

Thank you for your purchase, you've made a wise investment.

- Place mat on floor, position ramps
- Attach ramp sides first by aligning the LockSafe® connector males into the female connector.
- Apply pressure for LockSafe or utilize rubber mallet to ensure snap of connector.
- Attach corner to remaining male connector into female connector, again applying pressure for LockSafe
- Place mat in position. Enjoy comfort.
- If connecting multiple mats for larger area. connect mats together with same alignment of male and female connectors first.
- Next connect the ramps following the above instructions
- Finally, connect the corners following the above instruction

### Suggested Tools

- Mallet

### Required Tools (if customizing)

- Utility knife or industrial shears
- Leather or Kevlar® gloves
- Measuring tape
- Straight edge

### Optional Cutting Tools

- Skil® saw
- Band saw

## Area Preparation

### Prepare the Floor

- This product was designed for interior use. It can be installed in dry, wet, oily or slippery areas.
- It is recommended to sweep the surface of dust and debris before beginning.

### RECOMMENDED

Wear protective gloves when using a cutting tool or handling products with a grit surface.  
We recommend leather or Kevlar® gloves.
