

PREVENT. PERFORM. COMPETE.

24/Seven® LockSafe® ESD

24/Seven® LockSafe® Open

24/Seven® LockSafe® Solid

POSITIVE INTERLOCKING TILES WITH ESD PROTECTION!

Static electricity produces damaging sparks that can ruin and even destroy expensive equipment. 24/Seven ESD LockSafe eliminates static, while providing an ergonomic walking surface for optimal team performance. Made to cover large areas quickly, the 770 ESD & 772 ESD can be placed directly on conductive flooring, avoiding the need for grounding cords. The 'positive interlock' technology allows the rubber tiles to lock-in, while remaining easy to 'unzip' for reconfiguration. The LockSafe connection also allows assembled mats to be rolled up, making cleaning a breeze.

| TILES | PART NUMBER | SIZE | THICKNESS | COLOR |
|--------------------------------------|--------------------|----------|-----------|-------|
