F.I.T.™ Solid

Group 541

F.I.T. tiles are 12" (30 cm) x 12" (30 cm) and often referred to as "ErgoDeck Lite". Use F.I.T. to cover smaller spaces because it will require less cutting and customization. F.I.T. is also an alternative solution when the budget is tight.

F.I.T. features our patented LockSafe® Positive Interlocking System that prevents separation during use and can be easily unzipped to replace single tiles or sections as needed. Thanks to versatility and durability, the F.I.T. system can be used for many otherwise challenging applications. Tiles can be cut and reconnected every three inches to "fit" around columns, equipment or other obstacles. Cover a less-than-ideal floor (such as cracked concrete) to provide standing relief, safety underfoot, and traction for workers — not to mention world-class aesthetics. Assemblies of F.I.T. can also be rolled up without coming apart, making it an ideal solution for areas that require frequent cleaning.

- Most versatile modular tile
- Customisable in 8 cm (3") increments
- Secure and seamless connections
- Silicone-Free
- Overall thickness 16 mm (5/8")

Wearwell Categories Anti-Fatigue Flooring

Suitable Environment Dry, Wet, Oily

Customisation Level C3 - Full Custom (Length, Width, Shape)

Solid or Drainage Solid

Compound PVC

Recycled >80%

Warranty 1 Year

Property	Test / Result
Flammability	MVSS 302 / 'A'; Rating
Taber Abrasion	ASTM D 3884 / 1% loss
Temperature Range	-12 to 43_ Celsius
Coefficient of Friction	ASTM F1677 / Dry: COF = .81 / Wet: COF = .49
Compression Deflection	Not Available
Tear Strength	Not Available
ESD Rating	Not Available
Dielectric Strength	Not Available
