24/Seven® LockSafe® Interlocking Rubber Floor Tiles - Solid NBR w/ Gritshield®

Group 584-NBR

[Slip prevention](#) and anti-fatigue in one. 24/SEVEN® LockSafe® NBR with GRITSHIELD® is ideal for high chemical resistance in high-demand areas. The solid surface is ideal for foot or [cart traffic](#) in slippery environments. These large 3'x3' rubber tiles interlock and require no tools making installation to any configuration quick and easy. Use optional 24/SEVEN NBR edging and corners when and where you need them.

The Positive Interlock System provides a secure connection in all directions, so you don't have to worry about them coming apart even with heavy foot traffic. Secure connections, lightweight design, and unmatched flexibility allow assembled sections to be lifted up, rolled up, and rolled away for removal or maintenance. Tiles hold together and only come apart when you want them to.

- Available in 3 different rubber compounds based on environmental exposures:
