FOUNDATION™ Modular Work Platforms for Assembly Operations

Group FPAO

The use of traditional wood work platforms for assembly lines have more downside than upside. Not only do they get slippery, they're also costly to install and replace. Wearwell recognized this and designed a better mousetrap – FOUNDATION™ [modular platforms](#)! FOUNDATION tiles have a lightly textured surface that's ideal for walking and pivoting along assembly lines of any length. This style is easy to clean and ideal for the use of anti-fatigue matting. The modularity cuts down the time, labor, customization, and costly manpower of installation. With [FOUNDATION](#), you can quickly replace sections not an entire platform.

Each 18" x 18" tile boasts a load rating of 400 pounds, providing all the support your assembly line workers need and more!

Choose from a range of heights, lengths and widths to form any shape and size down to 18" (.45m) sections.

- Easy to clean
- Abrasion resistant
- Chemical resistant
- 400 lb. (181.5kg) load capacity per tile

Wearwell Categories	Platform
Suitable Environment	Dry
Customisation Level	C3
Solid or Drainage	Drainage
Compound	Polypropylene/Aluminum
Recycled	54%
Warranty	1 year

Property	Test / Result
Flammability	FMVSS 302: Pass SE/(B)
Taber Abrasion	ASTM D3884: 0% @1000 cycles
Temperature Range	32-160F
Coefficient of Friction	ASTM F2913-19: 0.79 dry, 0.62 wet
Compression Deflection	Not Applicable
Tear Strength	Not Applicable
ESD Rating	Not Applicable
Dielectric Strength	Not Applicable
